DIVISION OF
OIL, GAS & MINING

Dear Holland,

Enclosed is the BLM notice for 3 drill holes on the
Mike 8 claim at the LaSal Mine.

If you need further information, please let me know.

Sincerely,

John S. Vanderpool
Chief Engineer

JSV/pkm

(For BLM U Serial No. _____)

NOTICE
OR

PLAN OF OPERATIONS

(For Operations Proposed Under the 43 CFR 3809 Regulations)

DIVISION OF

Instructions: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR 3809.1-4(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate. A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form.

Operator Information:

| <u>Name</u> | <u>Address</u> | <u>Telephone</u> |
|--------------------|-----------------------------------------------------------|------------------|
| John S. Vanderpool | Umetco Minerals Corp. P.O. Box 767 Nucla, Co. 81424 | 303-864-7412 |

Claimant Information (If different than operator):

| <u>Name</u> | <u>Address</u> | <u>Telephone</u> |
|-------------|-------------------------------------------------------------|------------------|
| La Sal Mine | Umetco Minerals Corp. P.O. Box 307 La Sal, Utah 84530 | 801-686-2228 |

Claim Information (Claim names, circle claim types (Lode, Placer, Mill Site, Tunnel), BLM Serial No.):

Mike #8 UIMC #144585

Location of Proposed Activity (i.e. Township, Range, Section):

S1, T295, R24E

Describe Existing Disturbance and Structures or Indicate on Maps or Sketches (Mine and Mill Facilities, Workings, Tailings, Dump Areas, etc. It may be to your advantage to document existing disturbance with photographs):

Reclaimed Atlas drill holes and roads

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.) List all mechanized earth-moving equipment to be used during the operation and state if explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing the locations and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 acre = 43,560 sq. ft.)

Two drill holes will be on the existing access road. The third drill hole will require approximately an 8' wide 120' new drill road (0.02 acres) plus reopening of approximately 300' of old Atlas drill road (0.06 acres). The drill holes will be approximately 650' deep. If water and conditioning is necessary, environmentally safe conditioners will be utilized. The drill holes will be 4 7/8" diam. holes.

Period of Operation: From August 89 To September 89

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of nonoperation is anticipated.

The reopened Atlas road — new road will be reclaimed and reseeded, after completion of drilling and surveying. The drill holes will be filled with drill cuttings to within 7' of the surface; 5' cement plug will be placed and the remaining 2' will be filled in with drill cuttings, since the drill holes are on outcrop.

I will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Signature of Operator: John S. Vanderpool

Date 7/14/89

NOTICE TO OPERATORS:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 calendar days before commencing operations. Receipt of a notice will be acknowledged promptly. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a submitted plan and will notify the operator of the status of the plan within 30 days of receipt of the plan.
2. Submittal of a notice or approval of a plan of operations does not constitute certification of ownership to any person named as owner herein, nor does it constitute recognition of the validity of any mining claims named herein.
3. Generally, information that could be considered proprietary is not necessary to fulfill notice or plan of operations requirements. However, information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately and will not be available for public inspection.
4. Failure of operator to file a notice or a plan of operations, as required by the 43 CFR 3809 regulations, will subject the operator to being served a notice of noncompliance or enjoined from the continuation of such operations by a court order until such time as a notice or plan is filed with the BLM.
5. The completed notice or plan of operations should be filed with the appropriate resource area office. Their addresses are as follows:
